### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: regarding claim 1, although the prior art of record discloses many of the limitations of the claims, it fails to further teach or suggest the housing including an opening defined by a peripheral flange and the rotary member including an upwardly extending bulge forming a peripheral shoulder to rotatably receive the peripheral flange and to secure the rotary member in the housing chamber. Regarding claim 6, although the prior art of record discloses many of the limitations of the claims, it fails to further teach or suggest the rotary member including a space communicating with the aperture thereof and a fastener received in the space and threaded to the lower end of the pole to secure the pole to the rotary member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
